Anti- Smoking policy

Youthreach Ballinrobe strives to educate trainees about living a healthy lifestyle in a holistic learning environment. Trainees should not feel pressured into partaking in any habit that damage their health.

Trainees who feel they have to smoke should be aware of the following:

1. The smoking of self-made cigarettes, i.e. rollies, is strictly prohibited under the Drugs and Alcohol Misuse policy. This is viewed as a serious offence under our code of conduct.
2. A designated smoking area has been provided in the smoking shelter. This is the only area that smoking is permitted in Youthreach.
3. Smoking is **NOT PERMITTED** during class times.
4. The use of any type of E-cigarette is considered smoking and is integrated in this anti- smoking policy.
